

Tuscaloosa City Schools

STI Home+

What is STI Home+ ?

STI Home+ is a way for parents/guardians to access their child's grades and attendance from home or at work through the internet.

What will I be able to see?

Student demographics, contact information, schedule, class averages, grade book grades, report card grades, attendance, HS Graduation Exam scores.

How often is the information on the site updated?

Data is posted immediately to the site as soon as it is entered at the school.

How often do teachers update their class information?

Attendance is entered and maintained daily. However, teachers are only required to update their grade book information at 3-week (4-5 week for elementary schools) intervals for progress reports and report card grade posting purposes. Most teachers update grades weekly, and many update daily, but they are not required to do so.

How long is the service available?

STI Home+ will be available by one week after fall Open House and will be turned off one week after the end of school. Operating times are 6:00am until 10:00pm. Please remember that as with all internet sites there are sometimes down-times when servers are not available.

Is this a secure site?

STI Home+ accesses the student's information using SSL (Secure Sockets Layer) protocol. This is the same encryption system that is used by many web sites for obtaining confidential information such as credit card numbers. You should see a closed lock at the bottom of your browser whenever you are logged into STI Home+. This indicates it is a secure, encrypted site.

How do I get a login and PIN?

Login and PIN information will be given to parents/guardians by a school employee. PINs will not be given out over the phone or to students. You can pick up your student's login & PIN at schedule pick-up prior to the start of school or in the school office. You will be asked to show identification and sign a form in order to receive the PIN. New PINs will be issued each school year.

What are the browser requirements?

The following versions of Microsoft Internet Explorer are required for STI Home+:

- PC Users (Windows): Version 6.0 or above with latest service packs and updates
- Macintosh Users:
 - Mac OS 9: Version 5.1 with latest service packs and updates
 - Mac OS X: Version 5.2 with latest service packs and updates

You must have "cookies" turned on.
